All trees & shrubs sold are to be used for effective conservation practices such as windbreaks, erosion control, etc, and will not be planted for ornamental purposes. Trees & shrubs sold will not be removed with roots attached for resale. This is in compliance with NYS Sales and Use Tax Regulations, 20 NYCRR, Section 529.2 (c).

Species Descriptions & Site Suitability

Species	Mature Height	Description	Soil	Light
BALSAM FIR	60'	Native Adirondack tree, popular Christmas tree species. Very fragrant	South slope, avoid frost pockets	Partial shade
BLACK LOCUST	80'	Fast-growing hardwood; used for erosion control, fence posts.	Poor, sterile, or well-drained sand.	Full sun
COLORADO BLUE SPRUCE	100'	Attractive pyramidal shape. Sharp, dark green needles. Slow growing Christmas tree, windbreak.	Dry, well-drained	Full sun
BLACK WALNUT	50'	Broad crown & compound leaves, extensive taproot, valued timber tree, nuts for wildlife.	Deep, moist	Full sun
DOUGLAS FIR	200'	Soft, blue-green needles, fast-growing. Used for windbreaks, Christmas trees, timber.	Sandy-loam, well-drained	Full sun
EUROPEAN LARCH	75'	Very fast growing, marketable timber in 10-15 years sheds needles in fall.	Well-drained to clay	Full to partial sun
Highbush Blueberry	6-12'	Patriot: 6-8' spacing, constant moist soil, pH of 4.6-5.0 Blue Jay: Vigorous grower with heavy fruit set; pH of 4.8-5.2 Northland: Adapts to a variety of growing conditions; pH of 4.8-5.2	Moist, well-drained	Full sun to partial shade
NORTHERN WHITE CEDAR	50'	Pyramidal form, dense foliage. Used for wildlife food, cover & windbreak.	Moist, loamy	Full to partial sun
RED OSIER DOGWOOD	9'	Upright shrub, red stem. Fruit in mid-August. Streambank stabilization, wildlife food.	Poorly drained streambanks	Partial shade
RED OAK	75'	Lustrous green foliage, turning to a deep red in fall. Fastest growing of all oaks. Transplants easily.	Sandy to rich, loamy, well drained soils	Full sun
RED PINE	90'	Fast-growing; native to New York; reddish-brown bark, pole-like stature; used for plantations, screens, poles, lumber.	Well-drained, acidic, dry	Full sun
SUGAR MAPLE	75'	Spreading canopy. Brilliant fall colors. Storm sturdy. A NYS tree.	Well-drained	Full sun
STREAMCO WILLOW	10'	Round, dense shrub. Streambank stabilization and shade.	Wet	Sun or shade
WHITE PINE	100'	Excellent needle retention, good for windbreaks, screens, landscaping, Christmas tree.	Well-drained	Sun/ partial shade
WHITE SPRUCE	100'	Very hardy, stiff-needled evergreen; fast-growing, good for timber, screen, fresh-cut Christmas tree.	Wet to well-drained	Full sun
WILD APPLE	30'	One of several native apple trees. Fragrant blossoms are white to pink and up to 1.5" in diameter. Small fruit.	Well-drained	Full sun
WILDLIFE MIXED SPECIES PACKET		Highbush Cranberry: Native to New York; grows to 10' tall; prefers slightly acid, clayey loam & sandy soils; poor drought tolerance; white flowers in May, berries in fall. Food for birds and mammals. Torino Crabapple: Grows 8' to 35' tall, but is usually on the shorter side; white blooms in spring. Full sun. American Mountain Ash: Grows to 30'. Smooth-barked, round tree. White flowers in May, followed by large clusters of red berries. Full sun.		
PERIWINKLE (VINCA MINOR)		Maintenance-free groundcover. Erosion control. Lawn substitute. Grows to a height of 6". Excellent shade tolerance. Grows in low fertility, acid, clay, loam or sandy soils.		
SUNNY WILDFLOWER		Wide range of colors and bloom times; includes varieties suited to full sun or drier conditions; thrives with little care.		
SHADY WILDFLOWER		Designed to perform in low light or partial shade conditions, but will grow in full sun also.		
FERTILIZER TABLETS		Use 1 tablet per 1/4" stem diameter. One tablet for seedlings, two for transplants.
